

CFI Open Forum - Teaching Stalls and Spins. Open to all Pilots

CFI Open Forum, Teaching Stalls and Spins. Mike Kloch, FAAST Rep, will facilitate an open discussion with focus on Loss of Control - In Flight (LOC-I) fatal accidents. LOC-I is the number one cause of fatal airplane accidents. Virtually all LOC-I accidents end up in a stall / spin fatality. Even though this is a CFI open forum it is excellent information for airplane pilots at any level.

Directions: From Bend take Hwy 20 East to Powell Butte Hwy. Go North 2 miles and the Grange will be on your left (West side of Hwy).

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
